A Message from Virginia Oldham, M.A. C.P.S

March 25, 2010
Marion, KY

Currently there is a mentoring program that many of you may not be aware of. An opportunity to minister to students (at risk), in the school system. Sounds like a great partner to this effort. Crittenden County Middle School utilizes "The Masonic Model" established in 1986, Masonic Model Student Assistance Program (MMSAP) is the flagship program of the National Masonic Foundation for Children. Freemasonry offers this distinct student assistance program to serve communities throughout the country in the belief that prevention is the most effective tool for combating the scourge of addiction. Prevention stops use and abuse of drugs and alcohol before they take root.

http://www.grandlodgeoikentucky.org/community_programs.htm

Crittenden County Coalition for a Drug-Free Community through Local and Champions Funds provided materials and assistance in training school personnel to implement the Masonic Model.

Helping Teachers

Help Kids

A Local support system for preachers and church workers, to call on for help.

- Pastors who attended the meeting might benefit from forming a support group.
